

ResMed Air Solutions

a new beginning

Why should I look into getting a new CPAP machine?

With the recent launch of ResMed Air Solutions, this is a great time to start exploring the latest and greatest technology for treating your sleep apnea. This groundbreaking series of sleep apnea machines, masks and technologies work seamlessly together to deliver the comfort and support you deserve. And with our new web program, myAir™, you can track how your therapy is going each night – we'll even send you pointers and encouragement along the way.

As someone who has owned their current CPAP machine for 5+ years, you may qualify for a new CPAP machine. Check out the **Qualifying for a new CPAP machine** section below for more details and contact your home medical equipment (HME) supplier to find out more.

A new beginning in therapy choices

The AirSense™ 10 series of CPAP and APAP machines and the AirCurve™ 10 (bilevel) series are our easiest to use yet; simply press Start and you're ready to go. Using any of these machines gives you exclusive access to myAir, so you can stay engaged with your therapy. They also feature built-in humidification and new features that help you fall asleep comfortably and get the good night's sleep you deserve.

Unique therapy for women

The AirSense™ 10 AutoSet™ for Her is the first sleep apnea machine designed to provide female-specific therapy. Combine this revolutionary new machine with a "for Her" version of one of our AirFit™ masks for a truly customized setup.

Qualifying for a new CPAP machine

If you've had your CPAP machine for 5+ years, you may qualify for a replacement. To find out, contact your HME supplier and have the following information ready. If you don't have some of this information, let your supplier know and ask if they can help:

1. How many years have you had your CPAP machine for? **1** | **2** | **3** | **4** | **5** | **More than 5**
2. What is the condition of your current CPAP machine? **Excellent** | **Very Good** | **Good** | **Fair** | **Poor**
3. Recent note from a face-to-face evaluation by your physician stating that you are still using and benefit from your CPAP machine
